Commerical and Financial

Financial

NEW YORK, Dec. 8.—Sentiment in financial circles was heartened today by the decision of the stock exchange to resume restricted trading in stocks on Saturday. This feeling was accentuated by the firmer tendency shown by nearly all classes of securities. The day's list of stocks submitted for publication showed several additions to that issued yesterday, indicating steady extension of the demand.

While no apprehension was entertained respecting the wisdom of the move made by the exchange, it may be said that every precaution to insure its success will be taken. The fact that it has not been deemed necessary to form a money pool to be used as a back stop against heavy liquidation was regarded as an indication that offerings would find ready absorption. Another safeguard will be found in the level of prices at which all stocks over \$15 may be sold.

Further demand for exchange on Berlin was the sole feature of the market for foreign remittance, cables to that center being quoted at 92 1-2 with sight drafts at 92.

Private advices from Washington suggested an early decision by the interstate commerce commission in the eastern freight rate case.

Continued ease marked the local money situation, call and time loans being made at the prevailing low rates. Interior banks bought more freely of mercantile paper, these acceptances coinciding with encouraging trade advices.

Unofficial news respecting the steel industry suggested a better inquiry for special products, with a continuance of the deadlock for equipment materials. November tonnage of the United States Steel Corporation, to be published on Thursday, was expected to disclose another decrease in unfilled orders.

New York Cotton

NEW YORK, Dec. 8.—Publication of the census cotton ginning figures was followed by more discussion as to the probable size of the crop than noted in cotton circles here previously this season. It failed to stimulate business and the market was very quiet, with the close steady, not unchanged to 2 points higher.

The opening was steady at unchanged prices to an advance of 2 points, and at first sight the census report indicating 14,000,000 bales ginned to December 1, or the largest amount on record, appeared to inspire some speculation. The market eased off 3 or 4 points right after the recall under small local offerings with active positions selling 2 or 3 points below last night's closing figures. Prices soon steadied, however, selling some 3 to 4 points net higher during the afternoon on covering and a little trade buying.

Notwithstanding the large amount of cotton ginned for the season to December 1, the returns for the last period in November showed a very sharp falling off as compared with both the preceding period and with the same period for the past three years.

Spot cotton quiet; middling uplands 7.50. No sales.

Cotton futures closed quiet.

New Orleans Cotton

NEW ORLEANS, Dec. 8.—Smaller ginning figures than expected brought little change in the price of cotton today, the market closing at a net loss of 1 to 3 points. At the lowest the most active months were 3 points under yesterday's final quotations and at the highest one point over.

Trading for both accounts was restricted by the nearness of the government's estimate of the crop, generally regarded as the most important bureau report of the season.

Throughout the session offerings were in small volume. In the early part of the day Liverpool was not so strong as in the morning, by the south was not much in evidence, although most brokers expected to get some of this sort of business just before the government estimate on yield.

A fair amount of business was done in the spot department and it was predicted that December shipments out of this port would be large.

Spot cotton steady. Sales on the spot 225 bales to arrive 3,400.

Cotton futures closing: January 7.16; March 7.26; May 7.46; July 7.55; October 7.51.

Cotton Ginnings.

WASHINGTON, Dec. 8.—More cotton than ever ginned in any season prior to December 1 is the record for this year, as indicated by census bureau statistics, issued today, showing 15,006,105 bales had passed through ginner's hands. That was 349,395 bales more than ginned to December 1 in the record year 1911.

From November 14 to December 1 there were ginned 1,594,395 bales. That is less than ginned in the same period in the past three years, but more than in 1909 and 1910.

In Florida and Oklahoma the ginning to December 1 exceeded last year's entire crop in those States.

Ginning by States: Arkansas 1,433,389; Arkansas 846,582; Florida 72,859; Georgia 3,255,507; Louisiana 381,913; Mississippi 598,398; North Carolina 674,135; Oklahoma 1,018,387; South Carolina 1,225,467; Tennessee 290,329; Texas 2,766,694. Cotton Seed Oil

NEW YORK, Dec. 8.—Cotton seed oil was generally higher, despite reports of freer crude offerings, owing to support from refiners and moderate professional buying on the firmness in lard. Final prices were 1 point lower for July and 2 to 10 net higher for the balance. Sales 12,800 barrels.

The market closed barely steady. Spot 5.85@6.00; December 5.85@5.96; January 5.96@6.08; February 6.06@6.18; March 6.16@6.28; April 6.25@6.36; May 6.36@6.47; June 6.40@6.48; July 6.54@6.55.

Dry Goods

NEW YORK, Dec. 8.—Cotton goods were generally quiet today. Yarns were dull. Some inquiry for staple men's wear for the fall of 1915 was reported. An improved demand for silks was noted. Southern staple ginghams have been revised to a basis of 4-1-2c.

8 LIQUOR CASES ARE DROPPED BY THE CITY

Verdicts of Acquittal Returned Yesterday in Four.

Verdicts of acquittal having been returned by the jury in cases brought in the recorder's court against four negroes for selling whiskey. City Attorney G. Cullen Sullivan announced last night that the remainder of the cases—numbering eight or more—which had been worked up during the past 10 days by detectives engaged by the city were not prosed. Chief of Police Sammons was directed to release the defendants who were held in the remaining cases, and this he did last night.

In the recorder's court yesterday afternoon at 3 o'clock four defendants, all negroes, were placed in trial before one jury on charges of selling whiskey. The defendants involved were Henry Hunter, Bub Ellis, Hiram Williams and Annie Leonard. The jurors sitting in the cases were Archie L. Todd, J. M. Reecer, John R. Smith, Frank M. Barton, W. C. Geer and R. G. Leroy. The cases having been threshed out, the jury retired and shortly after returned verdicts of not guilty in all four cases.

Last Monday Chief Sammons handed his men some dozen or more warrants charging as many parties with selling whiskey, all of these involved being negroes. The warrants were served Monday night and yesterday afternoon trial of the cases was begun in the recorder's court. The cases were worked up by detectives employed by the city. The city attorney stated that it was to the best interests of the city that the remaining cases were not prosed.

ELLEN EXPLAINS RED CROSS SEALS

Ellen, who is seven years old and lives out in Kansas City, came home from school the other day with a red, green and white "subscription card" the teacher had given her. Her mother had seen something about Red Cross Seals in the paper, but didn't know just what it was all about.

"Oh," said the seven-year-old proudly, "don't you know? They use the money to take care of sick folks—sick folks that ha 'n't got any money to take care of 'emselves. The money they get from the Santa Claus seals goes to run a hospital for those folks. And they pay doctors and nurses to teach people how to get well and how not to get sick. Teacher told us all about it. See, this paper tells."

Then Ellen's mother read the folder that small daughter had brought home, telling how often tuberculosis can be prevented, and when she had finished she signed the card for a liberal number of seals.
